

STP-103

The **STP-131** is the ultimate value in thermal receipt printing. This high speed, low cost direct thermal printer offers many of the features found in more expensive printers.

With its **speed, quality and value**, the Samsung **STP-103** thermal receipt printer is clearly first in its class. This user-friendly design incorporates a small footprint and drop-and-load paper insertion, and can print at a speed of 50mm per second. Its ability to produce large clear print on 58mm wide paper is found on no other compact printer.
